

TECHNICAL SHEET

LUB-DIELECTRIC-L/C

LUB-DIELECTRIC-L/C, It is a solvent-type degreaser, specially formulated for cold cleaning of electrical equipment and motors. **LUB-DIELECTRIC-L/C**, has been formulated based on free chlorinated solvents, therefore it is not toxic to handle and does not emit vapors.

ADVANTAGES AND PROPERTIES

- **DEGREASER CHLORINATED FREE DIELECTRIC for electric motors.**
 - **LUB-DIELECTRIC-L/C**, is a concentrated product with a high dielectric constant,
 - it is not corrosive
 - Its dielectric constant is greater than 25 Kvoltios/in.
 - It does not cause damage to the varnishes of the windings. It has great degreasing power and displaces humidity.

APPLICATIONS

- For cold cleaning of electrical equipment and motors.
- It can be used in electronic boards

APPLICATION

The amount to use **LUB-DIELECTRIC-L/C**, varies according to the equipment or engine to be cleaned and their conditions. The product must be applied pure in the form of a spray or with a brush directly on the surface to be degreased.

PROPERTIES PHYSICO-CHEMICAL

COLOR:	Colorless – Slightly Yellow
ASPECT	Liquid
APPARENT VISCOSITY, cPS	10 - 20
SPECIFIC GRAVITY, at 25°C	0.800 – 0.820
FLASH POINT, °C	45 - 60
SOLUBILITY	100% in Hydrocarbon Solvents

INFORMATION ENVIRONMENTAL

Handle as an industrial chemist, wear personal protective equipment. See precautionary measures in the SAFETY DATA SHEET

DRIVING SURE

PRESENTATION

LUB-DIELECTRIC- L/C, is dispatched in 208 Lt drums, pailas or 19 Lt buckets. The product can be stored up to 12 months.
